APPLICATION FOR ECONOMIC OPPORTUNITY FUNDS – Page 1

PREAMBLE:

The EOF were created specifically as a means of compensating for the loss of economic opportunities on those lands affected by the dams and reservoirs and the resultant economic impacts to the affected communities. As such, the EOF are to provide funding assistance for projects deemed by the participating members and ratified by the Corporate Board to be worthy of support in an effort to stimulate economic development within the impact areas.

Impact Areas are as follows:

- Golden and Area 'A'
- Revelstoke and Area 'B'
- Sicamous and Area 'E'
- Area 'B' only

Criteria for accessing each EOF will be based on the demonstrable and enduring benefit to the economy of the affected communities at large. The EOF are designed to stimulate economic generators, transportation facilities and infrastructure development supportable jointly by the participating members involved and approved by the Board.

The EOF shall not be used as grant-in-aid funding.

ONLY NON-PROFIT ORGANIZATIONS ARE ELIGIBLE FOR FUNDING

Report

DATE: July 18, 2018
TO: Jodi Pierce, Manager of Financial Services
FROM: Kelly Bennett, Chief Financial Officer
SUBJECT: Economic Opportunity Funding Requests

Purpose:

To summarize details related to an Economic Funding Request.

Discussion:

The purpose of the funding is to assist the District of Sicamous (DOS) with the final cost for the purchase and installation of outdoor lighting along Highway 97A in a treed pathway.

The total project costs have increased to be approximately \$200,000. The original budget was \$100,000 with \$75,000 of this being funded from Economic Opportunity Funding (this was approved back in the 2014 year). Due to the length of time since the original project budget and EOF approval (4 years) the scope and design has changed resulting in an increase in the overall project costs. The DOS is asking for funding of \$100,000 to cover the remaining project costs.

Attached is a map showing where the lighting will be along the Highway. Due to their highly visible Highway location, many travelers will see the lighting which will draw their eye towards Sicamous and the downtown core. This lighting ties directly to the newly constructed and lighted roundabout and will have a significant "wow" factor to the entrance to the community and have travelers notice, which will assist in the "look" and "feel" of Sicamous and the surrounding area. This will encourage more visitors to the area and result in more tourism. The visually appealing lighting will also have a positive impact to any potential investors or developers, which directly stimulates economic development.

If you have any questions please contact me, and I would be happy to provide additional clarification.

Respectfully submitted,
