# of docks in sample area	10	9	10	13	8	13	6	8	10	87

Notes:

Areas sampled for dock size are zoned FR1 and FG1

All measurements are in m2

Only waterfront properties were sampled - no semi-waterfront or multi-family docks were included

Measurements are a very rough estimate done by using a measurement tool in ArcMap to get the area of the dock platforms as viewed on 2018 CSRD orthophotos

*If this dock is removed from the calculations the average dock size drops to 33.37 m2. This dock is subject of CSRD Bylaw Enforcement and Provincial Enforcement.

Sample Areas:

Blind Bay - Reedman Road to Tamarack Terrace

Crescent Bay - Tassie Road to Douglas Road (Water Access Only)

Eagle Bay Estates - Dolan Road to Donna Road

Magna Bay - Edgware Road to Miller Road

Wilson Creek - Water Access Only

Scotch Creek - Carl Road to Wharf Road

Seymour Arm - Bradley Road

Swansea Point - Oxford Road to Windsor Road

White Lake - Darcy Road to Hugh Road

*In areas where docks are more spread out fewer docks were able to be sampled.
