

#	SUBMITTED	WHICH COMMUNITY DO YOU LIVE IN?	HAVE YOU REVIEWED THE CANNABIS RETAIL STORE PROPOSAL?	PLEASE DESCRIBE THE IMPACT (EITHER POSITIVE OR NEGATIVE) YOU BELIEVE A CANNABIS RETAIL STORE WILL HAVE IN YOUR COMMUNITY?	HOW DO YOU SUGGEST ANY NEGATIVE IMPACTS BE ADDRESSED?	PLEASE PROVIDE ANY OTHER COMMENTS YOU HAVE REGARDING THIS PROPOSED CANNABIS RETAIL STORE.
4392	11/30/2019 13:18	Area c	Yes	Othing but negative they do ot belong in quiet resendential areas	Keep them away from family areas	There are e ough of them but if there must be more near pubs is better than near shopping areas
4339	11/26/2019 12:43	Balmoral/Blind Bay	Yes	Employment, further development of a business sector in Blind Bay.	I don't foresee any negative impacts cannabis retail has been operating in BC for more than a year without any major documented issues.	I shop for cannabis in Salmon Arm and Kamloops; this money would stay local if we had a retail location here.

4255	11/09/2019 – 21:44	Blind Bay	Yes	I hardly think we need anymore of these shops in the Shuswap area ..	Who is going to supply the policing of the areafor drivers under the influence	Not in favour at all
----------------------	--------------------	-----------	-----	--	---	---------------------------

4256	11/12/2019 – 20:41	Blind Bay	Yes	We live at [REDACTED] Balmoral Road, we are the property located right next to the proposed cannabis retail store. We believe there will be an increase to traffic and vehicles. Currently The parking lot during the summer months May – Sept will not be sufficient enough to allow for this business since the Blind Bay Village Grocer Store already can't handle the vehicles that park there during the summer months to get their groceries, liquor, mail, gas or ice	Will the Cannabis store be providing a proper fence that will address Noise control and privacy issues since this building is right next to our property line? How will they control or stop people from smoking or lighting up once they leave the building? We	We are NOT in favour of this House to be turned into a Retail Cannabis Store. Just because the Blind Bay Village Grocer store is now owned by a Corporation (and not privately anymore) and has been zoned for commercial use, why should the two property's that are on either side be subjected to Commercial Zoning type of
4267	11/18/2019 – 09:04	Blind Bay	Yes	No impact that i am worried about	No worries	
4268	11/18/2019 – 09:28	Blind Bay	Yes	I think there is no more or even less impact than the multiple liquor stores in the area	Only people trying to impose there outdated personal beliefs.	I think it's just another business paying taxes towards the community

4269	11/18/2019 – 09:55	Blind Bay	Yes	This property already has gas, grocery, and liquor sales, so cannabis sales should fit in without problems.	Warning, fines and finally licenses suspended.	This location has good parking and would work as a one stop shopping experience.
4271	11/18/2019 – 11:05	Blind Bay	Yes	I feel it would be a positive. It would save a trip to town for many who use cannabis medically or recreationally. Its no different than having a liquor outlet on the same property.	There will always be people who are opposed to anything new, regardless if its a cannabis store or a coffee shop. Most of the time its because they are misinformed and unwilling to change their bias.	I hope it goes through, I think it would be a benefit for this community, not just for accessibility but also in job creation.

4272	11/18/2019 – 13:34	Blind Bay	Yes	This will have a positive impact on our local economy. It will mitigate the amount of cannabis sold illegally in the area.	With the owners.	
4273	11/18/2019 – 14:11	Blind bay	Yes	Save me alot of gas. Convenient ..they're everywhere..Albertans vay k here and smoke weed on their rec time. No diff than alcohol consumption except you don't want to beat the dog and destroy your family when your on marijuana. The biggest thing you're going to get out of potheads is endless appetite medicinal healing a bunch of passive people.	I do not believe there are any negative impacts at all there may be for people that are ignorant to marijuana I believe this generation can be greatly impacted by the consumption of cannabis in a positive way. Parkinson epilepsy anxiety insomnia lack of appetite xcetera.	

4274	11/18/2019 – 16:29	Blind Bay	Yes	Having a separate Cannabis store located on the property AKA Blind Bay Village Grocer is a wonderful idea. It will make the purchasing much more convenient for the residents of Blind Bay and Eagle Bay. The fact that it is in a separate building from the main store will put those at ease who are perhaps sensitive to the product being on display in an open area such as the liquor department inside the store.	Making sure that product is not to be consumed on the parking lot.	
4275	11/18/2019 – 16:46	Blind Bay	Yes	No significant impact other than having easy access to cannabis for those that wish to purchase.	I cannot see the potential of any negative impacts considering the location.	I support this business proposal
4276	11/18/2019 – 17:11	Blind Bay	Yes	I believe this proposal will negatively impact the community in so far as these establishments tend to attract more criminal activity. This area is without a set Police presence as a rule and this makes this a more attractive place for someone to commit a crime.	Very strict supervision of the establishment. Only open during daylight hours	Personally I was against the legalization of cannabis but I have to accept the law of the country.

4277	11/18/2019 – 17:18	Blind Bay	Yes	Negative, We do not need this in Blind Bay. That area is frequented by many children especially during the summer months. The area is already congested with traffic and an accident waiting to happen, this will increase those chances.	Do not grant the licence	
4279	11/18/2019 – 17:28	Blind Bay	Yes	I believe it brings the worst of the worst of people to our neighbourhood. If you really want to get baked.... head down the highway and find one of the lowlife dope shacks that litter the Trans Canada highway or Highway 97. Just look at the people running these establishments and you will see the type of clientele they will attract. If you talk to any of the law authorities, they will tell you crime is on the rise since Trudeau legalizes pot.... can't be a coincidence.	More theft, more domestic violence more murders, more vigilantes to police and rid the area of the scum that do e drugs	I will do everything in my power to make sure those directors that are in favour of this, will have them removed from office in the next election

4281	11/18/2019 – 20:39	Blind bay	No	Good location. The only down side is the volume of traffic for parking in the summer months at the already busy and successful BB Village market. Otherwise, fully support.	As above, however, the parking congestion will be manageable depending on the hours of the cannabis store.	I have lived in BB for 20 yrs. I think it is a good idea and location for a retail outlet. Right now there is none in the area that is convenient or close by. I go to the Market a few times per week and the location is a benefit for all residents of BB. As to the cannabis store, I will not be a customer (at the present time), however I personally know several local residents who would support and shop
4283	11/18/2019 – 21:36	Blind bay	Yes	I know it will have a positive impact on our community both financially and for the health and well-being. Easier access will assist those who need it and help keep our people safe. Thanks for considering it.	With facts. It's simple.	Can't wait!

<u>4285</u>	11/19/2019 – 09:57	Blind Bay	Yes	Increased congestion around an already busy location. Too convenient for youth to access.	Deny the permit. Do not allow this business at this location.	
<u>4287</u>	11/19/2019 – 14:33	Blind Bay	Yes	We have been near other cannabis retailers and find that several of the people hanging around outside smoke their new purchases. The smell is bad, some of the partakers are obnoxious peoples. There will be children around that area, especially in the summer when the parking lot is full.	Put the new retailer away from Blind Bay	A big NO!!!!!!!

4288	11/19/2019 – 15:49	Blind Bay	Yes	I believe it will be okay, but believe there will be some traffic issues parking and a higher volume of traffic on roads in area.	Bigger parking lot maybe a 3rd entrance in to the area off the street. Request the M.O.T. to up grade the streets in the area.	there is a liquor store already in the Market in this area so I believe it is the right thing to approve application.
4293	11/20/2019 – 11:03	Blind Bay	Yes	I don't believe there will be any noticeable impact on our community. There is ample room for customer access to this proposed site. Further, I am aware of other sites for retail cannabis in the area and am not aware of any negative impacts of those locations. In fact I believe that earlier concerns of retail cannabis outlets generally have been found to be a non issue.	No negative impacts.	Businesses that want to take on the risk of this retail product should be allowed to do so.
4294	11/20/2019 – 15:02	Blind Bay	Yes	Negative build it next to Paul's house	Don't want it period to close	

4295	11/20/2019 – 17:54	Blind bay	Yes	I feel, that adding another store on this lot, will cause more traffic congestion in the area. In the summer it is absolutely insane trying to get in and out of this location. I love the grocery store an all they have to offer.	Maybe widening that section of road at this location, with turning lanes, to improve the congestion.	I feel that salmon arm already offers 4 stores in the area. I do know if one is needed in this area with all the tourists and children in the immediate area.
4297	11/21/2019 – 11:06	BLIND BAY	Yes	While I have no objection to pot I do not think that this is an appropriate business for a neighbourhood. Yes, the Village store is commercial and was badly needed for our community but do question the need for a pot store.	Simple. Do not have it here. Put it up in a commercial area like Sorrento.	
4298	11/21/2019 – 11:52	Blind Bay	Yes	I do not believe a cannabis retail store in our community will have any negative impacts. If someone wants to purchase cannabis they will do so outside of our community if the opportunity is not available in our community, so I see no concerns in providing this convenience to our area residents.	I do not believe there should be negative impacts.	

4299	11/21/2019 – 12:02	Blind Bay	Yes	<p>We live in a residential area, we have the Village grocery store which we enjoy having, then we don't have to go into Salmon Arm for a few items when needed. I am not against pot, and now it has been made legal maybe cuts down on the dealers selling it. We do not want a pot store in our neighborhood, we do not want unsavory characters in this very quiet and wonderful area and it will change. Put it up in Sorrento, many businesses there and it would fit in much better in a busy place.</p>	<p>That you are going to have to figure out. Have just learned there has all ready been a building set up for it! Once again the public finds out about it after it has been decided. Reminds me of a meeting we went to where the CSRD had pretty much made up it's mind to pay way more than the property was worth to Mr. Barker for Centennial Park</p>	<p>To confirm what I typed above, this residential area does not want this here!!!!!!!!!!!!!!</p>
4301	11/21/2019 – 21:02	Blind Bay	Yes	<p>I guess it is a sign of the times but legal or not my neighbors use and when they do I can not sit outside due to the stench that wafts onto my patio. When walking often I am disgusted by the stench of a passing car or odor from a yard. This product should not be readily available in our community, The RCMP have no way of truly proving an impairment as with alcohol and I would not be opposed if all liquor outlets other than BCLCB outlets were removed from this area. It was not detrimental to our health to pick up liquor when shopping in Salmon Arm and when it was done it was done. This should</p>	<p>Criminalize cannabis, or it was, but I can only guess that Justin uses and wants it legal.</p>	<p>I do not wish to see a retail cannabis outlet in the Blind Bay area. As a resident of this area since 1972 I have seen many changes. The Village Grocery is a better one allowing seniors a chance to stay here and avoid the trip to Salmon Arm to shop but liquor and cannabis are not two of the better ones.</p>

4302	11/22/2019 – 19:08	Blind Bay	Yes	I believe it will have a negative impact, by permitting drug type people to gather and loiter at the Blind Bay Village Grocer location, where seniors and tourists shop for daily groceries.	Simple..... do NOT allow such an application to proceed. There already exists a Cannabis store on the Trans Canada at Tri Crown.... a mere 10 klms away.	This is largely a 'retirement' community, who do not need nor want this type of business in our area. Such access will only invite further crime, especially during the summer, when people come to the Lake to Party!
4303	11/22/2019 – 19:13	Blind Bay	Yes	Positive impact in that it will provide jobs, provide a service to the local community so that users of the product do not have to travel a long distance to acquire their product and has the potential to increase property values as has been the case in many other communities that has these types of retail outlets.	I don't see any negative impacts with regards to this proposal.	I have not heard of any complaints from other communities that currently have cannabis retail stores.
4304	11/22/2019 – 19:20	Blind Bay	Yes	There are plenty of options available in Salmon Arm. We really don't need or want this in our neighbourhood.	Since I don't support this business and hope that many others won't either, I have no further comments.	

4305	11/22/2019 – 21:00	Blind Bay	Yes	There are a number of retail outlets in Salmon Arm already and also on the highway between BB and SA. I don't think we need anymore in the area.	Community meeting better advertised than the last one! Also multiple articles in the local paper and SCOOP of all the information before any decisions are made. I think then some sort of vote by residents.	We also do not want the smell of cannabis anywhere near where we go grocery shopping. Also this location is so close to a major family summer vacation area, I don't think families and young kids need an outlet so close to the ice cream shop!
4306	11/23/2019 – 12:56	Blind Bay	Yes	We already have so many outlets in Salmon Arm, Enderby and at the Tri Crown trailer location. Why do we need to advertise and encourage and sell that drug out here.	We all know that when drugs are allowed to be sold, it is inevitable that crime will probably increase. A retail outlet allows easier access to purchase cannabis.	We are totally disgusted that the Village Grocer in Blind Bay would even consider selling cannabis in their retail store. We live in an amazing community with people of all ages. Why do we need to advertise and sell this product here? The main reason any family retail outlet would sell cannabis is strictly for the money. SO DISSAPOINTED!

4307	11/23/2019 – 15:57	Blind bay	Yes	We do not need a cannabis store in blind bay there's to much drugs going on already.	My suggestion send it to some where else.	you must be joking we do not need a cannabis retail store in blind bay thank you very much.
----------------------	--------------------	-----------	-----	--	---	---

4308	11/24/2019 – 12:50	Blind bay	Yes	<p>You don't sell cannabis in residential area!!! It will attract the undesirable!, It's already a parking issue, who in there right mind would approve this!!! Find another location far away from our community!</p>	<p>Refuse the sale of Cannabis in a residential area, where grocery are sold and young children Shop! Do not approve this license!,</p>	<p>I will not shop at the at this store or buy gas at this location!, It residential! Don't need cannabis at this location. Shame on the store owner for even thinking of selling Cannabis , there are young children who also shop here! Shame shame on you!!!</p>
4310	11/25/2019 – 16:37	Blind Bay	Yes	<p>I often shop at the Village Grocer and am shocked they would be selling cannabis at this location. I am against any form of recreational drugs and often have grandchildren visit especially during the Summer. I would be extremely upset if they sell drugs in this location and would definitely boycott buying groceries at the Village Grocery Store.</p>	<p>The negative impact drugs have on many youth and adults are endless and it takes a lifetime of treatment to take care of these people after they end up in hospitals, drug addition centers, streets, etc. Wake up people and ask social workers, hospital staff</p>	<p>I am totally against it!!!</p>

4311	11/25/2019 – 19:44	Blind Bay	Yes	My issue is simple, while I understand that this product is now legal, I have huge reservations about it being located right beside the Village Market. There is already a pot shop by the RV Sales Lot by Tapin that is out of the way. Talk about turning Blind Bay into an ever increasing party destination. We have ever changing demographics in the area, more and more young children are being brought up here and frankly even though it may be legal, I feel that it impacts negatively on the type of image that Blind Bay should be striving for. I disagree with	Pot shops should be away from family based shopping. While legal many in the community have strong moral objections to yet another way to potentially harm our young people. I don't care what the law says the young people will purchase.	I disagree with the approval of this cannabis retail store. It detracts totally from a strong family values community.
4312	11/26/2019 – 07:30	Blind Bay	Yes	It would be great as society gets older and will need these types of store within the community because of the benefits it brings. Employment and is an alternative to expensive drugs.	I do not see any negative impact.	The location is ideal and the company that has submitted the application is a well known investment company and all the employees would be from the community.

<u>4314</u>	11/26/2019 – 07:32	Blind bay	Yes	Positive, a lot of seniors in the local area will benefit from easy access rather than driving 20 minutes into town	There is 5 or 6 dispensary's down town salmon arm. 1 dispensary in blind bay won't bring negative impacts.	It must happen
<u>4315</u>	11/26/2019 – 07:40	Blind bay	Yes	I beleive it is a good thing for our community. Bringing Jobs, taxes, and benefit to those who need it medically and cannot travel to salmon arm easy. I'm 100% for this. Please support his application.	This wont bring crime, or ruin our community. It only has good impacts such as stated in my initial comments. Talk about the value, adress the concern.	

4316	11/26/2019 – 07:43	Blind Bay	Yes	Legalized controlled sales and more tax base for the community	I can't foresee any real negative impacts.	More taxes for our community and keeping business local, rather than driving to Kamloops.
4317	11/26/2019 – 07:52	Blind Bay	Yes	Positive impact	No	

4319	11/26/2019 – 08:02	Blind bay	Yes	Will bring jobs and money to our community	Surveys like this one	
4320	11/26/2019 – 08:03	Blind bay	Yes	I live close to the grocery store and I do NOT want to smell it, as well this is only put here to support the summer time crowd and will most likely close in the off season.	Enough people in blind bay are growing there own for them self's, dont need a smelly pot shop for the summer crowd	Like I said I live very close to were this shop is being proposed and as a FULL TIME RESIDENT I do NOT want to be smelling any of this around my house,

4321	11/26/2019 – 08:05	Blind bay	No			
4322	11/26/2019 – 08:07	Blind Bay	Yes	I believe it will have a positive effect by creating jobs and bringing revenue into the community. It will allow people who cannot easily get into Salmon Arm or other areas that have cannabis stores to have access to cannabis products, there by reducing the black market impact. This is especially true for those who require cannabis medicinally.	I don't believe there will be any more negative impact than a liquor store would have. Properly train the staff to be aware of possible problem customers and to apply the rules of serving it right.	
4325	11/26/2019 – 08:16	Blind bay	Yes	For people who use it it would cut down on trips to town, also tourists will not be sourcing out black market sources. In short it will create a safer environment for our community knowing there is a safe trusted place to go purchase.	As a community, but I don't really see any negative impacts.	I believe it would be beneficial for our community to have a local and trusted place to attain cannabis products, as a large tourist community it would be a positive Way to cut down on the black market cannabis products and the dangers that come with it

4326	11/26/2019 – 08:22	Blind bay	Yes	I believe that it is needed badly in the area. 3 stores in salmon arm. Canoe has 1. Like the old days areas off the beaten path could have a liquor store in their store. I see no difference between then and now with full legalization of pot. Village grocer is a very good store and have sold liquor since opening. I see nothing but positive things about opening there	Through village grocer.	I'm looking forward to shopping in it
4327	11/26/2019 – 08:22	Blind Bay	Yes	It's an opportunity for our community to generate more tourist dollars as well as creating jobs for the year round residents.	The business owner seems to have a broad understanding of all potential pitfalls and has made himself available for discussion.	
4328	11/26/2019 – 08:51	Blind Bay	Yes	I support this application for a cannabis retail store in our Neighborhood. I am a senior that has lived here for 15 years. I have chronic pain and take cbd oil to mitigate the pain and to help my joints.	What negative impacts? Think positive! Keep an eye on this project to ensure success.	They should have bright lights on all night and create a good traffic flow in the parking lot. This is a forward-thinking endeavor.

4330	11/26/2019 – 08:59	Blind Bay	Yes	More people on drugs is never a good thing.	Alcohol and marijuana hot spot at the community grocery store is inappropriate.	Would rather see a community market, a bakery or pizza place...the community needs positive outlets rather than drug options. Makes me want to move.
4332	11/26/2019 – 09:09	Blind bay	Yes	I'm not very mobile and have chronic pain and a close place to purchase cbd would be wonderful.	Good security.	
4334	11/26/2019 – 09:34	Blind Bay	Yes			

4335	11/26/2019 – 10:47	Blind Bay	Yes	My husband uses CBD pills for pain. I rather support our community than someone else's	With respect and understanding. People need to be educated	
4336	11/26/2019 – 10:57	Blind bay	Yes	I believe that this business addition would not be in the best interest of blind bay. Our community already struggles with high crime rate, homeless and vagrants moving through year round. Our community also does NOT have adequate rcmp support for response time for urgent calls and impaired driving as is. I would not want to see the opportunity for further impaired individuals in our area. Because as I see it now, clients partake of their newly acquired product	Increase rcmp supports	
4340	11/26/2019 – 12:53	Blind Bay	Yes	Positive. More local business means less driving out of town. Keep money local	Research.v	

4341	11/26/2019 – 13:44	Blind bay	Yes	I believe it will boost the commerce in blind Bay especially at the grocery store. The two businesses complement each other at well. They can get their cannabis and they can get their food at the same parking lot. and not only that but it stops people from having to drive all the way into Salmon Arm to get to the closest vendor for their needs. In the wintertime especially this will save a lot of people headache and anxiety for travel.	I'm not aware of any negative impacts aside from the odd citizen in the community that is anti-marijuana. These sentiments stem from decades of proper information being disseminated to the Mass public and it's difficult to assuage concrete mindsets.	I wish James and his team all the best of luck on their proposal and project. I think it will be a great addition to the commerce of blind Bay and Sorrento area, and having one more business to contribute to taxes and community sponsorship is something always worth supporting.
4342	11/26/2019 – 14:53	Blind Bay	Yes	I think it'll be great.	I don't think there will be negative impacts.	

4343	11/26/2019 – 15:36	Blind bay	Yes	I think will great for our community! It will bring jobs, and allow our community members to have the same convince of living in town.	There are no negative impact at all. Nothing but positive things for our community in my eyes.	I think it's a great thing for our community! 100% positive.
4344	11/26/2019 – 16:10	Blind Bay	Yes	I personally know numerous people in the area that use cannabis for medicinal purposes. It will be beneficial to them and many others, to be able to purchase locally. I am definately in favour of a cannabis outlet opening in our area.	By letting the new owners prove that the business will be operated legally and respectfully. I am sure there will be a few people opposed ... well then .. they should definately not shop there.	
4345	11/26/2019 – 17:07	blind bay	Yes	I do not partake in smoking pot due to health conditions. I do believe that these stores are a good thing, They do take some of the business from the black market (although they wont stop it). The vacationers will have somewhere to get there fix without having to look for it.	I do not believe at this site there would be a lot of negative impact. limit the hours of sales as in the liquor store (or shorter hours) and everything should be all right. maybe limit amount of signage on storefront so as not to offend some people.	

4346	11/26/2019 – 17:16	Blind Bay	Yes	This is a poor location for a cannabis retail outlet. The Blind Bay Village Grocer (BBVG) already is a busy location that sells groceries and liquor. In the summertime, the store, parking lot, and roadways are swamped with tourists, and long lines of children and teens pick up ice cream cones from the take-out window. Many enjoy these treats at the nearby picnic tables. Throughout the year, kids and families shop here for groceries, and the store and area becomes overly busy (especially around suppertime) with	Locate the cannabis outlet someplace else-- especially look for a place where there are not children already being served, where liquor is not being sold, and where an increase in traffic will not become unmanagable or too dangerous.	I don't think a cannabis store mixes well with a store that already sells liquor, and I think this location is especially inappropriate because it serves teens and children every day.
4351	11/26/2019 – 18:17	Blind bay	Yes	I think it is a great idea	More policing	

4352	11/26/2019 – 18:18	Blind bay	Yes	I am for it. If it helps our community get jobs and helps people access it closer to home, I am all for it.	An open house?	I hope you go ahead with it.
4353	11/26/2019 – 18:49	Blind Bay	Yes	Absolutely over saturation of cannabis outlets in the area. Therefore, I am 100% opposed to another outlet. The area proposed is less than a block from the public beach which many children frequent. There is a retail outlet two miles away on the highway which could service the patrons, without effecting a public area.	Limit the public exposure, where children are present. An outlet on the highway, would ensure it's customers are, at least, at the driving age. Keeping the younger children away from second hand smoke, as well as temping teenagers.	Keep it on the highway as noted above.

4355	11/26/2019 – 20:12	Blind bay	Yes	No negative they are selling a legal products to adults notuing wrong there	Ignore them	Would be nice to see and a few jobs would be good
4356	11/26/2019 – 20:59	Blind Bay	No	Keep people who suffer from medical conditions from travelling far for relief, Job creation in our small town, a safe place for adults to make legal purchases	It's legal, get over it. No different than a liquor store. Adults only, no driving under the influence.	A good thing for Blind Bay in a safe, central location.
4358	11/26/2019 – 21:42	Blind Bay	Yes	I am opposed to illicit drug use including marijuana	Prevent pot shops from opening in our community	I am adamantly opposed to drug dealers operating at the only grocery store in town. I'm also allergic to the smell of pot

4359	11/26/2019 – 22:05	Blind Bay	Yes	It will keep the money in the community, and discourage the illegal distributors, but I am against the legalization of cannabis so therefore do not support any stores of this kind anywhere.	Can't do anything about the legalization of marijuana, it, it is a done deal.	
4360	11/26/2019 – 22:16	Blind Bay	Yes	I see nothing but positive impact on the community	I see no negatives	
4363	11/27/2019 – 07:03	Blind bay	Yes	Probably minimal	Lortoring	It's legal there is an age thing..who cares

4364	11/27/2019 – 07:38	Blind bay	Yes	A store in this family location will only promote the use of drugs. These types of stores should not be directly in our faces. If people need to get their fix, they should go to a remote location, so innocent people don't have to view this activity. We don't need this in our community	More police presence will be needed in the summer. I can see the parking lot turning into a pot smoking gathering area.	Bad location. I get the impression someone is trying to promote the use of these drugs. These stores should be in a out of the way location, not right in our face.
4365	11/27/2019 – 08:10	Blind bay	Yes	Blind bay is a touristy community, I think a cannabis shop would thrive in blind bay and the elderly people who consume in the bay and need to drive to the nearest town to get some would eliminate that pointless travel	It should be considered but shouldn't be listened too	

4370	11/27/2019 – 12:42	Blind Bay	Yes	Positive	People can choose to either buy from the store or not – its the same thing as purchasing from a liquor store.	Great idea!!
4371	11/27/2019 – 13:26	Blind Bay	Yes	I believe that there are enough cannabis retail stores in the Shuswap area that we do not need yet another one. They are in the City of Salmon Arm on the Highway to Blind Bay, and that is enough. The smell of it is revolting and there is a lot of people that smoke cannabis and drive at the same time and we don't need that in our community.	Listen to them and take action.	

4372	11/27/2019 – 13:55	Blind Bay	Yes	I realize people may need the cannabis for medical reasons, but not everyone that buys the stuff does and some can be very disrespectful by smoking it with others around, and/or driving while taking it. Bottom line, it smells bad and if you drive while the marijuana is in your system, you are driving under the influence! My opinion is there are enough stores around to get what you need, we don't need to start smelling up our community and quite frankly, promoting the possibility of people driving around our community under the influence. and making our beaches	For the store to not be put in.	It doesn't make sense to put in a cannabis retail store in a small community that would only market to very few here year round, and have it beside the only store we have in the community that offers merchandise to families. We need to protect the many families that use our beaches and roads in our community from the smell, as well as from those that would be intoxicated. Please don't put
4373	11/27/2019 – 14:14	Blind Bay	Yes	I am very upset to think this store may come into the area. There is enough problems with substance use in the area esp in summertime. This is just asking for trouble in the resort area. There are enough retail stores around that people can purchase elsewhere but making it so very accessible to summer time visitors/residents is just asking for disaster. I am STRONGLY against this!	Don't allow the store to operate in the area.	I'm disgusted to think someone would think this is a good idea!

4374	11/27/2019 – 15:45	Blind Bay	Yes	I don't believe this is a good idea. The location is next to children's bus stops, and a grocery store where I go with my children.	Dont put a store that sells cannabis next to a grocery store, and bus stops.	
4375	11/27/2019 – 16:38	Blind Bay	Yes	I believe this will have a negative impact on my community. I have been by other dispensary locations around the province and there is no escaping the offensive odour given off by marijuana products and the users. People using pot do not follow the laws regarding its usage in public places. The dispensaries attract intoxicated individuals and that just isn't family friendly.	Simply don't put a dispensary in period!	There are ample dispensaries in the area already and the black market demand for pot has only been strengthened with the opening of costly dispensaries.

4376	11/27/2019 – 22:14	Blind Bay	Yes	I feel like there's too many families/children that visit that site. I know that the Cannabis stores have to be a certain distance from schools, there are 2–3 bus stops in that area and kids are there all the time in the summer. I'm not against a store, I'm just STRONGLY against the location.	A different location in Blind Bay.	
4377	11/28/2019 – 00:07	Blind Bay	Yes	The proposed cannabis store is 1.next door to the Blind Bay Village Grocer a family oriented store with long line ups for ice cream during the summer . 2.Across Belmoral Road from the Blind Bay Resort a family resort with a beach. 3.A short distance from 2 public beaches on Blind Bay Road. 4.A short distance from the Centennial Field where the Canada Day is celebrated, this is the same location for weekly musical events during the summer months. 5.Blind Bay and area have many part time residents who have many quests	Turn down the application	I feel that this proposal if allowed will attract illegal drug dealers to compete with their marijuana and other drugs. If this application is approved it will be the people of Blind Bay and area that will suffer.
4379	11/28/2019 – 11:01	BLIND BAY	Yes	This is a family oriented community. We have enough crime related incidents without the use of cannabis being increased and readily available.	The refusal to allow a cannabis store be set up in this area.	I am totally against this proposal of a cannabis retail store anywhere in this area.

4380	11/28/2019 – 18:59	Blind Bay	Yes	Having a cannabis retail store in a quiet mostly retirement area will negatively impact the image of this community and ultimately has the ability to impact property values. Personally I would not move into a community with a neighbour cannabis retailer so close by.	Retail cannabis stores belong in a city venue. There are enough outlets in Salmon Arm to address the need of all the neighbouring communities. Why do we need one in a retirement community like Blind Bay?	Village Grocer wanting a cannabis outlet only demonstrates they do not care about the well being of this community and are focused on what they believe are added revenues to their business. We frequent Salmon Arm enough that I will stop buying groceries from Village Grocer if this goes through.
4381	11/29/2019 – 09:20	Blind Bay	Yes	I believe CBD and THC help pain and illness on so many different levels. So this cannabis retail store would positively impact my community	Like any that would arise in any other retail outlet.	Its a great location.
4389	11/30/2019 – 09:09	Blind Bay	Yes	I would think parking would be affected, and that would be more so in tourist season. There are enough parking spots, but people tend to park along the right fence right near the lot entry when there are designated spots for those pulling trailers, or oversized vehicles. This causes visibility problem for customers driving in. It would be a convenience for those grocer customers who do use the product.	If people would use the proper parking spots in tourist season, it wouldn't be a problem. It could be a problem if the age issue isn't enforced. Or using the product and driving under the influence.	There have been issues with customers leaving the store with unpaid liquor (usually tourists) and they are already drunk and then drive. I can't see this being a problem with cannabis as the product would not be easily accessible on open shelves (as far as I know). I don't know enough about effects of driving under the influence of cannabis, and though all products aren't

4390	11/30/2019 – 09:52	Blind bay	Yes	Closer availability for those who need it.	Discussions at the location.	
4393	11/30/2019 – 18:23	Blind Bay	Yes	Blind Bay is a quiet neighbourhood in an area of outstanding beauty that should not be spoilt by the impact of people who are influenced by cannabis. The area is primarily occupied by elderly and young families alike, people who enjoy their surroundings and do not want this beautiful area spoilt by the minority who insist on subjecting their bodies to this non-conforming habit of drug taking and all the low life that accompanies it.	Do not grant a licence and 99.9% of negatives will be removed before they have a chance to begin.	It is not necessary in such a quiet respectful area and if the Province has to have cannabis retail stores they should be confined to the cities where there are law protecting authorities who can deal with the low-life cannabis users and all the problems that they bring. Do not pander to the minority – refuse the licence
4394	12/01/2019 – 09:10	Blind Bay	Yes	Blind Bay Market is the hub of Blind Bay. In the summer, the current parking lot is too small to accommodate shoppers. Often you have to do laps to get a spot to park. It is inadequate to support another business. There are already several cannabis outlets nearby.	Open outlets away from the shopping “centre” of our community.	There are already several outlets nearby. There is not a need for this additional outlet.

4395	12/01/2019 – 20:05	Blind Bay	Yes	I believe it will have a positive impact on the community because it will help decrease the illegal sales therefore lessening the crime rates, but also it will create a few jobs for people in the area. It may only be 3–4 jobs, but they are far and few between so I will support any chance for someone to gain employment in our community. The only negative impact I can see, is the people who already have issues with the marijuana industry "boycotting" the store, as well as it will take up valuable parking space needed	I think of they accommodate more parking than it will be ok. That area has high volumes of people in and out so there will be without a doubt a need for more spaces.	I think it will be great. I would rather see people buy it legally and safely than buy it from someone growing in their backyard, with the possibility of it being laced with something.
4396	12/02/2019 – 06:58	Blind Bay	Yes	Legal cannabis is a new and emerging industry with lot of economic benefits. I strongly support the approval of a cannabis store in the Blind Bay area!	I do not see any negative impacts to the approval of a cannabis store in Blind Bay. It's no different than alcohol and as long as we educate and enforce driving while impaired laws, there should be little to no issues.	
4399	12/02/2019 – 09:50	Blind Bay	Yes	Increased traffic at site and Eagle bay road Different clientelle then comes to grocery store	Location be moved from grocery store srea to somewhere else in area	Location is only concern

4401	12/02/2019 – 10:01	Blind bay	Yes	Positive– more businesses = more money in the community. Keep local business local to our community!	I don't see a negative impact. There are laws in place to protect underage individuals. I see there being more risk selling liquor at the local grocery store rather than a completely separate building for the sales of cannabis.	
4402	12/02/2019 – 10:02	Blind Bay	Yes	More people smoking means more people high while driving	Not really sure. They isn't any roadside test development yet.	Doesn't belong in this community. I'm totally against this
4403	12/02/2019 – 10:03	Blind Bay	Yes	I believe a retail cannabis store will benefit those in the area that use cannabis. It saves them having to drive any distance to purchase it.	I don't feel there will be any negative impacts.	I support this retail store, even though I do not use cannabis.

4405	12/02/2019 – 10:04	Blind Bay	Yes	No problems...	Public education on cannabis.	The sky will NOT fall...
4408	12/02/2019 – 10:23	Blind Bay	Yes	Not required here. There are enough of these establishments in Salmon Arm.	Find another location.	

<u>4410</u>	12/02/2019 – 10:42	Blind Bay	Yes	Do not want or need in this community at all. There are already these shops within a short drive.	Do not approve the permit.	Do not want to have this in Blind Bay.
<u>4412</u>	12/02/2019 – 11:39	Blind Bay	Yes	I don't think this is a good idea because of several reasons. This is a very busy place already and the added volume of traffic is not good on a busy road already.(I live 2 houses up from this place) Too many young people will be using this place and they are less experienced drivers and with all the young kids using the store already if would hate to see some one hit with a vehicle. I was taking to a RCMP and he says that they find more impaired drivers coming out of liquor stores now more then ever. I am afraid that this could happen here being impaired but from cannabis.	Go with what the majority of the LOCAL people think. After all this is a democracy country isn't it?	

4415	12/02/2019 – 13:27	Blind Bay	Yes	I believe this new retail business is a good thing for our community.	I don't believe there will be any negative impact as result of this new business.	I think the location is perfect and I wish them all the best in their endeavour.
4417	12/02/2019 – 13:57	Blind Bay	Yes	Best idea ever	Get rid of the whiners	
4418	12/02/2019 – 14:07	Blind Bay	Yes	Jobs and retail outlets are good tourism.	The federal government has made sale so restrictive that I do not see any negative impacts.	I believe it should be allowed

4421	12/02/2019 – 16:01	Blind Bay	Yes	<p>We don't need all the scummy riffraff this store as a congregation point will bring into the area. We have enough problems here already. It's well known in the area that this store will be a front, laundering money for the local organized crime wackos. All the liberal pedofile teachers living in Blind Bay can grow their own weed legally at home, this store isn't needed here.</p>	By not putting the business in.	
4422	12/02/2019 – 16:10	Blind Bay	Yes	<p>I feel that this type of retail operation would be detrimental to our tourist trade. Tourism is mostly family oriented in the Blind Bay Area and the type of traffic that would be generated by a non-medical retail operation would conflict.</p>	I don't think the retail application should be approved.	<p>This type of operation does not bring any benefits to the Blind Bay Community. The amount of tax collected from the business would not offset the negative impact on our tourism.</p>

4425	12/02/2019 – 16:31	Blind bay	Yes	I have a young family and I believe it will have a negative impact. We have noticed in town outside one of the cannabis stores near a well known cafe how many patrons come out of the store and “light up” immediately after returning to there vehicles. I honestly don’t care what people do in there own homes but smoking it in the parking lots around kids is not ok. Just as drinking in a public place is not.	Not have the store!	It absolutely saddens me to think that the communist of Blind Bay would deny recycling, composting and a nice family park but they will fight to have a marijuana store???? Where are the priorities! I vote yes to recycling, composting and family oriented activities that will benefit our community in a positive way not just add to more substance abuse.
4426	12/02/2019 – 16:35	Blind bay	Yes	Do not need a cannabis store in the area. There is enough going on with holidays and alcohol	Do not put it there. There are lots of stores between there and Salmon Arm	
4427	12/02/2019 – 18:16	Blind Bay	No	This is a convenient location for me.	Limited advertising?	Nice to see change and acceptance in this manner.

4431	12/02/2019 – 21:38	Blind Bay	Yes	I believe this store would be fine in this location.	Cannabis is now legal in Canada – bottom line. It should not affect the school bus stops near by – children can not purchase these products. If they are going to obtain cannabis this store will not be the source!	
4432	12/02/2019 – 22:50	Blind Bay	Yes	It stinks, I am sick and tired of smelling marijuana everywhere I go now. I don't want to go to my local grocery store and see people coming and going buying their weed.	Don't put a cannabis store in Blind Bay!	

4433	12/02/2019 – 23:34	Blind Bay	Yes	No economic impact. No need for this retail operation, especially at the proposed site. This is not what the rezoning was for the store operation.	Do not go ahead with the retail operation.	
4436	12/03/2019 – 06:28	Blind bay	Yes	This is a very busy store/service station that offers everything from ice cream at an outdoor stand during the summer to deli , meat market as well as a liquor outlet. The parking lot during the tourist season is full to capacity and a lot of young families frequent this retail outlet. Cannabis is used recreationally to get stoned or high, and I worry about the safety of the areas busy business, with the appeal of a recreational cannabis outlet. Who will be there to police the users who get in their car and light up. I understand this shop will be at the back of	Have this outlet in an area that is stand alone without the busy parking lot	Cannabis is legal, but recreational cannabis does present health and addiction issues. Do we really have to have it sold st the local grocery store.
4443	12/04/2019 – 16:39	Blind Bay	Yes	I think the impact will be neutral. The public will either support the store and it will be a viable economic situation or they will ignore it and they will close. No one can predict that. Cannabis is simply another option for some.	The same as the negative impact of alcohol.	I don't drink alcohol or use cannabis in any form, but I think people should be able to make a choice. There are so many cannabis operations in the works I have trouble imagining they will all be successful.

4446	12/04/2019 – 18:29	Blind Bay	Yes	<p>This outlet will be located in a Family orientated area. There are already traffic issues i.e. congestion at this location with the re-routing of the Balmoral Road Intersection, which increases during the summer months. Our area ALREADY has more than enough retail Cannabis Outlets including one located on the TCH. The average age of the Blind Bay population is sixty-four years . Blind Bay does NOT need this retail outlet.</p>	By NOT allowing this retail development to proceed.	As an weekly shopper at the Blind Bay Grocer, I will take my grocery/gas need elsewhere if this unnecessary cash grab is approved. Thank You.
4448	12/04/2019 – 23:34	Blind Bay	Yes	<p>It will attract undesirable elements to the community.</p>	Not have the retail store in Blind Bay.	

4455	12/05/2019 – 13:07	Blind Bay	Yes	I do not believe that a cannabis store in Blind Bay is either necessary or desirable. We have a great tourist area with mostly families with children that vacation here every summer. This area is right in the heart of the boating/swimming area, where all the children are.	Don't build the store in this area, if at all.	If this project is connected or supported by the retail store and gas station, I would definitely not support their business any longer.
4458	12/06/2019 – 09:48	Blind Bay	Yes	I believe it will have a negative impact overall. I am not opposed to a retail store, but not in this location. 1. This area relies on tourist business and a cannabis retail store is not conducive to a family friendly area. 2. There are already more than enough house parties that happen (especially in the summer with said tourists) and to make access more convenient will only encourage this. 3. The Village Grocer is VERY congested (Except for during the winter) and Balmoral road is a major access road in each direction	You can't address the impact on family friendly tourism because it's not family friendly to have a retail store here. People still vape and smoke up right at the beach so this will not help that. The road congestion – hmm. Can't think of a solution for that. Village Grocer	I don't think it should happen in the centre of a community. Perhaps official community plans need to address this as it's not a necessary amenity

4459	12/06/2019 – 10:41	Blind bay	Yes	I think it would be ideal. People will always be involved with cannabis & the closest retail store for it is almost in Salmonella a Arm & on a cold winter day no one wants to make the trip to salon arm! So having one out here would be awesome ! Plus, in the summer months they would make some great profit due to all of the travellers we get around here! Such a great idea!	I don't see any negative impacts. I think all around it's a great idea.	Whoever thought of putting a cannabis store out in the Blind Bay Area.. you are a genius.
4460	12/06/2019 – 15:29	Blind Bay	Yes	I am against it. I feel there are more than enough locations around if ppl want the product. I do not want to see it in our little community.	I don't have any suggestions.	

4461	12/06/2019 – 18:54	Blind Bay	Yes	I believe the store should not be in that location as I think it will have negative effects on small children... especially in the summer time, with the ice cream store being so close.	The answers to negative concerns should be posted on the CSRD website.	
4462	12/06/2019 – 22:15	Blind bay	Yes	Negative impact due to potentially attracting criminal activity	Refuse application	

4463	12/06/2019 – 23:44	blind bay	Yes	will be a welcome addition to the local bussneses allredy availabe. will create jobs for local residents	the location is perfect as it will be close to other bisnesses.	
4465	12/07/2019 – 15:46	Blind Bay	Yes	I do not believe or support the proposal of a retail cannabis store at this location – just not suitable and not necessary – in a very family oriented area. I do know we have several retail stores available in Salmon Arm and that those stores should have our support.	No comment – just don't approve this location. We have several retail stores in Salmon Arm we should be supporting.	I am not in favor of this proposed cannabis retail store. Thank you for the opportunity to provide comments.
4466	12/08/2019 – 07:35	Blind bay	Yes	It's a positive for the community. We are aging and having access to other medicinal support products is wonderful	Keep it secure and staffed with very knowledgeable people	

4278	11/18/2019 – 17:25	Blind bay bc	Yes	I don't believe it would have any negative effect at all. Cannabis has been readily available in this community for decades. Having legal access has many positives. It creates jobs, helps to decrease illegal cannabis sales, allows closer access for those who use it for medicinal and recreational use. To disallow a business opportunity in our community would be foolish.	Though education of the business And benefits to taxes etc. As well as the number benefits of this particular product has for individuals.	
4282	11/18/2019 – 21:18	Blind Bay BC	Yes	I believe the addition of a retail cannabis store will have a positive effect on my community. It will bring employment. It is in a safe location. It is not accessible to minors. It is legal and the applicants have followed all the rules as set out by the CSRD.	No access for minors (as per the law).	I support this application and wish the applicants good luck in their new retail venture.
4454	12/05/2019 – 12:30	blind bay bc	Yes	I feel the location for this type of retail outlet on the Village Grocery site to be an extremely bad choice. This is far to close to the venues that cater to families, young teens and children. Spring, summer and early fall have huge family oriented traffic in and out of that parking lot. Ice cream outlet, pop, candy, deli, groceries, local tourist information and newspapers. The service station catering to not only cars, trucks, SUV's, but boats, quads, propane, also adds to the large amount of traffic in and out of	I suggest a different location, well away from the above types of activity. There is an outlet in Sorrento with very easy access from the highway and 1 several kilometers west of Salmon Arm, again with easy highway access. Does our area really need another	This location has nothing to do with supplying a service that this community requires. It is only about the money.

4324	11/26/2019 – 08:08	Blind Bay, BC	No	I have not seen the actual proposal but I am aware of the project and its location. I don't believe there will be a significant impact with this store opening up. Cannabis is now a legal substance and no different than purchasing alcohol. As a community member I would much rather have it available as a controlled substance to the community rather than street grade that is not controlled and can contain other harmful ingredients. It will also deter those that sell it illegally in our community (which	I cannot see any significant negative impact except perhaps a more congested parking lot area.	James Inglis is a responsible and respected member of our community and I fully support this proposal as a non-cannabis user.
4368	11/27/2019 – 09:23	Blind Bay,bc	Yes	The only negative I see happening is lack of parking. It`s so busy at the grocery store in summer,can`t imagine what it`ll be like with a pot store there to.	The owner to be should address them individually or post them in the newspaper or on the blind Bay community forum.	I don`t see pot being sold any different than alcohol. They`re both legal so what`s the issue. Just another business to offer jobs in the community.
4349	11/26/2019 – 17:58	Blind Bay/Shuswap Lake Estates	Yes	I believe that the increase in users immediately around the proposed store will further add to the “party” atmosphere during peak tourist times. As a resident it’s already difficult to get in and out of that area safely, the increase in traffic and risk of people driving and boating high will make this so much worse.	The location should be somewhere with controlled traffic intersections, lights, turning lanes, and parking that can accommodate the increase in traffic flow. Additional rcmp need to be there monitoring for increased crime and accessibility to youth as well.	There was no public meeting in the proposed neighborhood. This feels very corrupt and shady the way it has been handled thus far.

4350	11/26/2019 – 18:07	Blindbay	Yes	Constant flow of young families and child through that parking lot. Probably not the best choice to put it beside an ice cream shop.	Online ordering with postal delivery keeps it out of our neighborhood and easy convenience for the medicinal user and less chance of it provoking our children.	I do not give my consent
4296	11/21/2019 – 10:09	Blindbay BC	Yes	I have no problem with a cannabis retail store in my community and just to mention I am not a consumer of cannabis but have seen the positive effects of people that need it medicinally	Is there a negative effect as this will be controlled by age and distribution Regulated hours If there's an issue the owner of course would be spoken with or fined	
4411	12/02/2019 – 11:22	celista	Yes	The store will create jobs and generate retail traffic hopefully creating a snowball of business and personal opportunities.	with the legalisation of cannabis police in several jurisdictions of Canada have not experienced higher crime stats as predicted.	being a year round venture this would help with the seasonal boom bust cycle.

4428	12/02/2019 – 18:34	Chase	Yes	This will be the closest store so it's definitely a good idea. There is no negative impact except slight increase in traffic in an area that is commercial anyways.	No negative impact.	It's about time, closest stores are in Salmon Arm or Kamloops.
4420	12/02/2019 – 14:56	Chase, BC	Yes	I am a local Realtor who lives in Chase but primarily service the North Shuswap and South Shuswap regions. I believe offering local access to cannabis in the Blind Bay would be a positive addition to the community, and will provide people with a safe, legal source to get their medicine. It will also keep money out of the black market and mitigate the ever-present risk of having product laced with adulterants.	I believe concerns should be discussed through community meetings annually, semi-annually etc. allowing the local populace to voice and table any potential concerns in regards to the storefront.	I believe overall there would be a positive local impact through the approval of this retail store.

4270	11/18/2019 – 10:44	Eagle Bay	Yes	This would increase the potential of impaired driving offenders. Customers of the facility may expose children (or anyone) to second hand smoke .	Education and monitoring/policing.	Nice that it would employ some people. Hopefully local residents.
4280	11/18/2019 – 17:48	Eagle Bay	Yes	I believe it'll be positive in our community. It'll be nice and handy when you go shopping and will bring what customers to the store and the community.	Respectfully	
4333	11/26/2019 – 09:32	Eagle Bay	Yes	I believe it won't impact the community at all. I like the fact it won't be in your face and those that have a need for the products can get it locally and legally.	Open communication, support for this new business and dialogue so any myths can be addressed.	I think the location is ideal.

4397	12/02/2019 – 09:12	EAGLE BAY	Yes	Neither negative or positive.	Communication	Simply another legal retail service available from a small business. Don't stifle small business.
4407	12/02/2019 – 10:13	Eagle bay	Yes	It's better than alcohol stores on every other corner... people need to get over themselves.	The same way the deal our government...nothing.	Hurry up and build it
4423	12/02/2019 – 16:28	Eagle Bay	Yes	I really don't think there will be much of an impact. It is now legal. Those that want to purchase cannabis can, and those that choose not to don't have to.	No negative impact	As selling and buying cannabis is now legal I don't have a problem with this. As long as all laws and regulations are followed.

4435	12/03/2019 – 05:20	Eagle Bay	Yes	This should not be allowed. Too many people come to the Shuswap and think that it is OK to get extremely high on the lake. The Shuswap is a family environment and retail can I is stores should be kept in municipal environments, not recreational areas where abuses can lead to serious public safety incidents.	Do not allow this to happen	This is a money making venture for the owners and is not a benefit to the community.
4440	12/03/2019 – 20:41	Eagle Bay	Yes	Negatively. We have children who regularly visit Blind Bay store and do not need them on close contact with those buying cannabis. Options elsewhere. This is opportunistic in a family friendly neighborhood. That crowd is not needed in a family friendly area near the beach.	Establish shop in larger centre away from residential areas.	Not in Blind Bay.
4464	12/07/2019 – 05:34	Eagle Bay	Yes	Creates Jobs A clean safe product to prevent overdoses	*	

4468	12/09/2019 – 09:35	Eagle Bay	Yes	I believe the impact on locating a cannabis retail store would be in very poor taste. The Village Grocer in Blind Bay is a family grocery outlet. Not everyone agrees with the legalization of cannabis and I feel that with the amount of children in the area, the local store is a bad choice for this type of product.	I strongly urge that this application be denied.	
4429	12/02/2019 – 19:14	Gleneden	No	Neither good nor bad	Jail all CSRD personnel	Could care less

4434	12/03/2019 – 04:29	Lee creek	Yes	Positive– there is not one closer for those who do not wish to travel as far especially in winter	I do not suggest any negotiate impacts	
4400	12/02/2019 – 10:01	McArthur Heights	Yes	I think it's an excellent idea, tourists and locals will love the convenience. Our aging population uses cannabis products almost entirely for pain control. We sell liquor, why not this legal product?	No	I support the proposal 100% Great parking and access already in place.

4329	11/26/2019 – 08:53	Notch hill rd Sorrento.	Yes	Not in favour...too close to the beaches & boaters. Asking for trouble !	Don't make the drugs so accessible to beach areas..	There is plenty of them around they can get the drugs from !
4331	11/26/2019 – 09:02	Prince George	No	I believe having control over this is better than not. Plus it's a very tourist driven destination so providing safe and control cannabis is important.	Legally everyone should follow the rules.	If the eight person manages it you will have a safe community focused store.
4289	11/19/2019 – 21:03	Shuswap	No	I don't think we need more so many already and with the high price of government cannabis and the grey market taking over some licensed cannabis stores are going out of business . Licensed stores can't not survive in the grey market all most In possible till something is done about it	Going broke . Can't survive. I know a few stores in this area having lots of trouble keeping people employed at the prices the government wants	Don't do it so many already this could be doable but not until the great market is cleaned up I and the government lower threes tax in it . BC cannabis stores don't pay the 15% mark up they charge but pass it on to private ma&pa shops . It's hard to survive and why in blind bay there are going to be 6 in SA and so on to many will flood the market then no one wins

4439	12/03/2019 – 14:48	Sorento	Yes	A cannabis retail store will allow me to receive treatment a lot easier than ordering online.	It is currently a hassle getting my medication.	
4438	12/03/2019 – 14:45	Sorento bc	Yes	I believe it will be a good impact, I want the drug revenue to be taxed at least .	By showing where the new tax revenue from the store is going , have a tally outside saying x dollars for edu or rehab programs, show the community that it is a positive and not just "for druggies"	
4284	11/19/2019 – 06:37	sorrento	Yes	Negative, don't need it. There's a lot of summer traffic in the area already and that will only increase it.	Don't allow it to go in.	

<u>4313</u>	11/26/2019 – 07:31	Sorrento	Yes	More year round jobs.	I don't see a y negative impacts on the community.	I support it.
<u>4318</u>	11/26/2019 – 07:57	Sorrento	Yes	I believe this cannabis retail store will have a positive impact because it will create jobs that were not available in the area before, as well as we are a tourist hub so it will also bring more income to the area while hopefully eliminating the black market in our area.	I believe for every problem there is a solution. So if there are any negative impacts suggested – they should be thoroughly discussed by the CSRD as well as the members of our community to maybe come up with a compromise that will work for everyone.	
<u>4338</u>	11/26/2019 – 12:05	Sorrento	Yes	Great addition to our community, local jobs and revenue for our community!	It's far less harmful than liquor.... But no survey is needed for a new liquor store. Negativity should be disregarded.	Thank you for providing a safer alternative to adult recreation for our community!

4361	11/27/2019 – 01:07	Sorrento	Yes	I think having an approved retail store would be great. I take cbd oil daily to help with back pain, and look forward to having a local shop to browse options.	I dont think there are any negative impacts. I believe some people are just closed minded and cant wrap their heads around the fact that it is legal.	
4362	11/27/2019 – 06:16	Sorrento	Yes	I feel this is a good location. The shops that are properly set up and licensed are good.	Education.	Approve it. I'll go there

<u>4369</u>	11/27/2019 – 09:55	Sorrento	Yes	I think its a great and positive service to have in our community. It will generate more money being spent here and less traveling for people, keeping our roads safer.	I don't anticipate any negative impacts from this development.	What a great service for our community.
<u>4378</u>	11/28/2019 – 09:51	Sorrento	Yes	After 6 months of opening I can not see it having any "impact" either way.	As long as it is properly run according to government regulations re age and id etc. it should be the same sort of business as your local liquor outlet.	

4391	11/30/2019 – 13:09	Sorrento	Yes	We are not in favour of a cannabis retail store in any area that has many tourists, especially when power boats and other water activities are common.	Do not approve it.	As above
4413	12/02/2019 – 11:56	Sorrento	Yes	I don't feel this community needs another cannabis store there are enough nearby also there are enough grow ops nearby the smell is putrid I really don't believe we need another cannabis outlet store	Too many around promoting getting high and driving not enough police to patrol	Do you not need so many retail cannabis stores around as I said in previous statement too many around now promoting getting high and driving not enough police to patrol

4414	12/02/2019 – 13:17	Sorrento	Yes	I believe it to be a good thing. CBD products can affectively aid in mental and physical illnesses. A store that sells regulated products closer to home is great for me.	Openly and honestly. I believe cannabis products are much safer and cause less damage then alcohol.	
4416	12/02/2019 – 13:29	Sorrento	Yes	Less driving to town for locals	I don't believe there is any negative impact	

4419	12/02/2019 – 14:12	Sorrento	Yes	I believe it will help boost our economy and provide safety regarding the sale of cannabis in our neighbourhood.	Logically and from a business perspective	I think having a designated store in the area will make it less accessible to our under age teens and provide peace of mind to parents in our community.
4444	12/04/2019 – 17:42	Sorrento	Yes	Positive, provides access to legal marijuana closer to home. Proposed locale is conveniently located.	What negative Impact? People have been using marijuana for a longtime, obtained from alternative sources.	
4449	12/05/2019 – 04:45	Sorrento	Yes	No difference between liquor store or marijuana store	There is no negative in my opinion.	This is great as we will no longer need to drive to salmon arm.

4450	12/05/2019 – 06:50	sorrento	Yes	The store in front of the location already sells cigarettes and alcohol. Both addictive substances and bad for you if not controlled. So what's the difference if they also sell "controlled" weed. It will probably be used mostly by the summer tourists who also buy the cigs and booze. Pot shops readily available to the public will soon become an everyday reality. Put the pot shop in and keep the money and customers in the area.	Ask yourself the same question. How do you negate the negative impact of cigs and booze in the same location. That's up to the individual to police their own lives. They'll do the same with the pot.	Go ahead!
4457	12/06/2019 – 09:47	Sorrento	Yes	Thank you for allowing input especially from Blind Bay & Sorrento, BC. The location being within 200 feet of the Blind Bay Market, is a bit disturbing as people of all ages between newborn the most elderly will be exposed to more cannabis smoke when walking from the grocery store parking lot. I would certainly expect a much higher concentration of cannabis polluted air from those people puffing before leaving the premises. A lot of customers at this property are non-smokers and non-cannabis users. one of which I am.	This location is in my opinion the worst scenario possible, next to having it right inside Blind Bay Market.	Thank you for your time [REDACTED] [REDACTED] Sorrento, B.C.
4323	11/26/2019 – 08:08	Sorrento BC notch hill	Yes	I feel there is a need in this community for a legal dispensary. Have access would take consumer off the highway and increase local job opportunities.	I believe the applicant is community minded person and would address all concerns.	

4251	11/07/2019 – 15:46	Sorrento/Blind Bay	No	I think there will be a negative impact on the area. I will not feel comfortable purchasing gas or groceries at the Blind Bay Village Grocer. We have enough crime in our area without adding this to the mix.	Keep the cannabis stores away from our small community.	Please consider the fact that cannabis has ruined many young minds and bodies and has been proven to cause mental health issues.
----------------------	--------------------	--------------------	----	--	---	--

4453	12/05/2019 – 11:43	South Shuswap	Yes	Cannabis store already operating in this local area on Native Land at Pierres Point .	Do not allow the permit.	The location proposed use to be a personal residence of the original store owners Plus parking is already a premium during the summer seasons without adding any more attractions
4286	11/19/2019 – 13:36	sunnybrae	Yes	Increasing cannabis retail outlets will help prevent illegal purchases from happening. We should have have more than one in Area C.	open a store in this area to avoid negative impacts	

4409	12/02/2019 – 10:24	Sunnybrae	Yes	I think it will be a positive impact on the community. It will be much more convenient for people in our area aswell as create more jobs close to home.	I don't believe there will be any negative impact	
----------------------	--------------------	-----------	-----	---	---	--

4337	11/26/2019 – 11:18	Tappen	Yes	I believe that it will have a negative impact in our communities. We have a lot of summer visitors. I think if approved we will make cannabis that much more available to tourists . Therefore having more impaired drivers on boats and cars!	Don't approve this application!	A very negative impact on this beautiful community!
----------------------	--------------------	--------	-----	--	---------------------------------	---

4357	11/26/2019 – 21:31	Tappen	Yes	I think it will have a positive impact!!	Turn their negatives into a positive somehow	
4441	12/04/2019 – 09:03	Tappen	Yes	Another close option	Work with community	Don't see a problem. There are lots in Salmon arm. Eg one near down town Askews.
4447	12/04/2019 – 21:39	Tappen	Yes	There is no guarantee that an individual wouldn't ingest the product while still on the property or while driving to their residence. I am fearful of the increase of intoxicated drivers.	Don't have the store there.	

4354	11/26/2019 – 19:38	White Lake	Yes	Lower carbon footprint for those living in the community so they do not have to drive as far.	I don't think there would be any more of a negative impact than having a liquor store there which we already do.	I think it is a good idea and I do not partake but may at some point as I am 60 next year and the body pain continues to get worse as we age.
4367	11/27/2019 – 08:53	White Lake	Yes	Jobs		
4424	12/02/2019 – 16:29	White Lake	No	I think the sheer number of cannabis stores that we have in the Shuswap is going to impact the culture of our area. In the same way that the presence of 'instant loans' stores for example correlates with undesirable neighbourhoods, the presence of so many cannabis stores is starting to give the shuswap a reputation of being an undesirable place to visit, work, and live.	Stop opening more stores. We have more per capita than anywhere in Canada I believe. We don't need more.	

4430	12/02/2019 – 21:14	White lake	Yes	Ita a good addition to blind bay residential businesses.	With information and clarifying	Good location with a small profile wo could offend anybody.
4437	12/03/2019 – 08:29	White Lake	Yes	The area can be very busy during peak season as it is. I also don't want to normalize drug use to the young people and children in the community. There is a heavy population of children nearby the proposed location.	By not having the location by the Village Grocer.	
4398	12/02/2019 – 09:29	White lake (Sorrento)	Yes	It will do well here.	There shouldn't be any.	

[illegible]
