

APPENDIX 'B'

Agency Referral Responses

Area 'C' Advisory Planning Commission	Recommended approval.
Interior Health Authority	Interior Health has no objections to the proposal to amend the bylaws so they comply with the current CD 3 zoning.
Interior Health Authority – Community Care Licensing	No response.
Ministry of Environment	No response.
Ministry of Forests, Land and Natural Resource Operations	No response.
Ministry of Forests, Land and Natural Resource Operations- Archaeology Branch	According to Provincial records there are no known archaeological sites recorded on the property. However, archaeological potential modeling for the area indicates there is a moderate possibility for unknown/unrecorded archaeological sites to exist on the property. Archaeological sites (both recorded and unrecorded, disturbed and intact) are protected under the Heritage Conservation Act and must not be altered or damaged without a permit from the Archaeology Branch. Prior to any land alterations (<i>e.g.</i>, addition to home, property redevelopment, extensive landscaping, service installation), an Eligible Consulting Archaeologist should be contacted to review the proposed activities and, where warranted, conduct a walk over and/or detailed study of the property to determine whether the work may impact protected archaeological materials. An Eligible Consulting Archaeologist is one who is able to hold a Provincial heritage permit that allows them to conduct archaeological studies. Ask an archaeologist if he or she can hold a permit, and contact the Archaeology Branch (250-953-3334) to verify an archaeologist's eligibility. Consulting archaeologists can be contacted through the BC Association of Professional Archaeologists (www.bcapa.ca) or through local directories. If the archaeologist determines that development activities will not impact any archaeological deposits, then a permit is not required. Occupying an existing dwelling or building without any land alterations does not require archaeological study or permitting. <u>In the absence of a confirmed archaeological site, the Archaeology Branch cannot require the proponent to conduct an</u>

	archaeological study or obtain a permit prior to development. In this instance it is a risk management decision for the proponent. If any land-altering development is planned and proponents choose not to contact an archaeologist prior to development, owners and operators should be notified that if an archaeological site is encountered during development, activities must be halted and the Archaeology Branch contacted at 250-953-3334 for direction. If an archaeological site is encountered during development and the appropriate permits are not in place, proponents will be in contravention of the <i>Heritage Conservation Act</i> and likely experience development delays while the appropriate permits are obtained. .
CSRD Operations Management	Team Leader Utilities No concerns. Assistant Regional Fire Chief – No concerns. This property is currently serviced by the Shuswap Fire Department and has a hydrant system that is in good condition. Team Leader Environmental Health – No concerns. Parks – No concerns for CSRD Parks, as park land was dedicated on a previous subdivision involving these properties. Manager Operations Management – No concerns.
CSRD Financial Services	Interests Unaffected by Bylaw.
Adams Lake Indian Band	No response.
Little Shuswap Indian Band	No response.
Neskonlith Indian Band	No response.
