## Part 5. Parking and Loading Regulations

---

### 5.1 Changes to Situations Existing at the Date the Bylaw Came into Force

- .1 A change to land, *buildings, structures and uses*, existing at the date this *Bylaw* came into force, must provide and maintain a vehicle *parking area* and a *loading area* in accordance with the regulations of this *Bylaw* with respect to the change.
- .2 A *parking area* and loading area existing the date this *Bylaw* came into force must not be reduced less than the regulations of this *Bylaw* require.

### 5.2 Number of Parking and Loading spaces

- .1 The number of vehicle *parking spaces* and *loading spaces* required for each *use* is set out in Table 1 Required Parking Spaces and *Loading spaces*.
- .2 Where the calculation of the required number of vehicle *parking spaces* and *loading spaces* results in a fraction, one space must be provided for the fraction.
- .3 Where seating is the basis for calculating the number of vehicle *parking spaces* and *loading spaces*, each 0.5 m of width on a bench, pew, booth or similar seating type, is one seat.
- .4 Where more than one *use* is located on a *parcel*, the total number of *parking spaces* and *loading spaces* required is the total of the requirements for each *use*.
- .5 Where more than one requirement applies to a *use*, the more stringent requirement applies.

### 5.3 Parking Space

A *parking space* must be a minimum of 16.5 m<sup>2</sup> in area, 3 m wide, 5.5 m long, have 2.2 m overhead clearance and have a regular surface with a maximum slope of 8%. The maximum slope of 8% does not apply to a *single detached dwelling* or *guest accommodation*.

### 5.4 Loading space

A *loading space* must be a minimum of 3.7 m wide, 9 m long, have 3.7 m overhead clearance, have a regular surface with a maximum slope of 8%, and not be used as a *parking space*.

### 5.5 Average Area of Parking Spaces

The area of a *parking space* may be reduced by a maximum of 20% provided the average area of all *parking spaces* on the *parcel* is equal to or greater than the minimum *parking space* area requirement.

## 5.6 Access to Parking and Loading space

- .1 A *parking space* and *loading space* must be accessible from a driveway or other internal roadway which is connected to a *highway*.
- .2 A *parking space* and a *loading space* must be constructed so as to permit unobstructed access to and egress from each space at all times without the need to move other vehicles (except a *parking space* for a *single detached dwelling*, and *guest accommodation*).

## 5.7 Location of Parking and Loading space

- .1 A *parking space* or *loading space* must be located on the same *parcel* as the *use* to which it is required.
- .2 A *parking space* or *loading area* must not be within the front *setback*.
- .3 Access from a *highway* to a *parking area* or *loading area* must not be closer than 7.5 m to the nearest point of intersection of two or more *highways* as shown in the figure below:

*Distance from a highway to a parking space*

## 5.8 Bicycle Parking

- .1 *Bicycle parking spaces* shall be provided in addition to vehicle parking for each *use* as specified in Table 3.
- .2 Design and Standards:
  - (a) *Bicycle parking spaces* shall be a minimum of 0.6 m in width and a minimum of 1.8 m in length, shall have a vertical clearance of at least 1.9 m, and shall be situated on a hard surface.

- (b) Aisles between parked bicycles should be a minimum 1.2 m in width.
- (c) Bicycle racks shall be located in a convenient, well-lit location that is easily located by visitors and subject to visual surveillance by occupants of the *building* served by the rack.
- (d) Bicycle racks shall:
- (i) be constructed of theft-resistant material;
  - (ii) be securely anchored to the floor or ground;
  - (iii) support the bicycle frame above the centre of gravity; and
  - (iv) enable the bicycle frame and front wheel to be locked with a U-style lock that is CSA compliant.

**THE FOLLOWING INFORMATION IS NOT PART OF  
RANCHERO / DEEP CREEK ZONING BYLAW NO. 751**

**Further Information About Development And Subdivision Within Ranchero / Deep Creek Zoning Bylaw Area In Addition To Ranchero/Deep Creek Zoning Bylaw No. 751**

The following information is provided for the information and convenience of the reader and is not part of this Bylaw. It may be used as a guide to investigate which agencies to contact for further information or requirements where development or subdivision is proposed. The information may not be complete and should be used only as a guide.

Please note that more than one agency may regulate an activity or development. All regulations and bylaws in force must be complied with.

**Zoning Bylaw Inspections**

Section 1.7 of the Bylaw provides for inspections to determine whether or not the Bylaw is being complied with. Usually the CSRD's Bylaw Enforcement Officer is the person who would conduct these inspections, however, inspections can also be carried out by the Chief Administrative Officer or Manager of Development Services. The general inspection procedure is established by the CSRD's Bylaw Enforcement Policy as amended from time to time. Inspection staff also recognize the need to respect biosecurity measures when inspecting livestock or green house farm operations.

**Site Specific Regulations or Special Regulations**

In Schedule A of the Bylaw, the text part, there are a number of site specific regulations. These regulations describe a parcel by legal description and a map. If the legal description of the parcel or its boundaries as shown on the map are changed, then the regulation will no longer have effect because the parcel it applies to no longer exists.

**Penalties for Contravention of Zoning Bylaw**

In a conviction for an offence against a zoning bylaw a court may currently impose a fine of not more than \$10,000, or imprisonment for not more than six (6) months, or both. The provincial government may change the penalties from time to time. In addition to this the costs of prosecution may be awarded. A local government may also apply for an injunction to restrain the contravention of a zoning bylaw.

### Development Variance Permits

The CSRD Board in response to an application from a property owner may issue a development variance permit. A development variance permit may vary the provisions of the zoning bylaw; however it must not vary the use or density of land or a flood plain regulation (excepting setbacks from natural boundaries) from that specified in the zoning bylaw.

### Bylaws Amending a Zoning Bylaw

Applications to amend a zoning bylaw may be made to the CSRD in accordance with current Development Services Procedures Bylaw. Additional information is available from the CSRD, Development Services Department.

### Non-conforming Uses and Siting

The Local Government Act sets out provisions for non-conforming uses and siting. Generally, if land, a building or a structure is lawfully used at the time a bylaw was adopted, and the use does not conform to the Bylaw, then the use may be continued. If the use and density of buildings and structures conform to the Bylaw but the siting, size or dimensions of a building or structure constructed before the Bylaw was adopted do not, then it may be maintained, extended or altered in the manner stated in the Act. The Local Government Act, Division 4 is more detailed than is stated here and additional limitations apply.
