RE: Rezoning Application – Linda E. Parker – BL 2133

This letter is to confirm that we, (Linda Parker and Bill Wood), do commit and have committed to Shuswap Septic Service to design and install a new septic system on our property located at 5192 Hwy 97B SE , Salmon Arm, BC.

Shuswap Septic has and or will receive the necessary improvements permits as required by Interior Health.

We also confirm that we have contacted a second Hydrogeologist who will be visiting the property this week, but will not be able to provide a report before the meeting of the board on November 16, 2017.

We are doing our utmost to get you and the board the required information as soon as we can though we still do not understand the requirement for a hydrogeologist report. We were of the understanding that by changing our request from three dwellings to two, there would be no requirement to inspect or license the well.

To date we are now committed to over \$30,000 dollars which, as Seniors on pension, is causing us significant hardship.

Linda E. Parker

William J. Wood
