

Public Hearing Submission - BL840-05-1/BL841-10"

Hi, we're [REDACTED] and [REDACTED], at [REDACTED],

Sicamous, B.C., VOE-2V5.

We have concerns about our water source that runs through a pipeline on the Lot that is being subdivided by

[REDACTED] and [REDACTED]. (Landmark)

We have run Kala Spring water through that pipeline and area for 30 years and need to continue its flow to our property.

(By necessity and prescription)

If we can come to an agreement with [REDACTED] and [REDACTED] concerning our water concerns before they are approved for their subdivision plans, would be both of our best interests.

If we cannot come to an agreeable conclusion, then we will oppose any further subdivision applications that [REDACTED] and [REDACTED] will submit to the CSRD.

Dated 19/02/2025.

[REDACTED]

Feb 19<sup>th</sup> 2025

CSRD "Public Hearing Submission - BL 840-05/BL 841-10"

To whom it may concern.

I [redacted] owner of [redacted] and [redacted] Cambie  
Solsqua Rd. [redacted] for more than 30 years.

Legal subdivision 6 section 17, Township 22 Range 7,  
meridian W 6 Komloops Div of Yale Land District N 363'  
PID: [redacted] ROLL: [redacted]  
FOLIO: [redacted]

I have the acreage directly [redacted] of subject property 1795

There are greenhouses and livestock on the Farm.

Issacs creek is a year round water course which  
has been running for 50 yrs +. This creek feeds my  
Aquifer and I depend on it for my H<sub>2</sub>O.

The 3 MH holdings all have access to this creek.

My concerns are with the proposed subdivisions  
will the creek be maintained, and not disrupted.

Also, can there be assurance's that the quality  
of the water will stay the same?

Should I apply for a water licence on the creek?  
would that help my cause for the water?

Yours truly, concerned neighbour
