THE FOLLOWING INFORMATION IS NOT PART OF

RANCHERO / DEEP CREEK ZONING BYLAW NO. 751

Further Information About Development And Subdivision Within Ranchero / Deep Creek Zoning Bylaw Area In Addition To Ranchero/Deep Creek Zoning Bylaw No. 751

The following information is provided for the information and convenience of the reader and is not part of this Bylaw. It may be used as a guide to investigate which agencies to contact for further information or requirements where development or subdivision is proposed. The information may not be complete and should be used only as a guide.

Please note that more than one agency may regulate an activity or development. All regulations and bylaws in force must be complied with.

Zoning Bylaw Inspections

Section 1.7 of the Bylaw provides for inspections to determine whether or not the Bylaw is being complied with. Usually the CSRD's Bylaw Enforcement Officer is the person who would conduct these inspections, however, inspections can also be carried out by the Chief Administrative Officer or Manager of Development Services. The general inspection procedure is established by the CSRD's Bylaw Enforcement Policy as amended from time to time. Inspection staff also recognize the need to respect biosecurity measures when inspecting livestock or green house farm operations.

Site Specific Regulations or Special Regulations

In Schedule A of the Bylaw, the text part, there are a number of site specific regulations. These regulations describe a parcel by legal description and a map. If the legal description of the parcel or its boundaries as shown on the map are changed, then the regulation will no longer have effect because the parcel it applies to no longer exists.

Penalties for Contravention of Zoning Bylaw

In a conviction for an offence against a zoning bylaw a court may currently impose a fine of not more than \$10,000, or imprisonment for not more than six (6) months, or both. The provincial government may change the penalties from time to time. In addition to this the costs of prosecution may be awarded. A local government may also apply for an injunction to restrain the contravention of a zoning bylaw.

Development Variance Permits

The CSRD Board in response to an application from a property owner may issue a development variance permit. A development variance permit may vary the provisions of the zoning bylaw; however it must not vary the use or density of land or a flood plain regulation (excepting setbacks from natural boundaries) from that specified in the zoning bylaw.

Bylaws Amending a Zoning Bylaw

Applications to amend a zoning bylaw may be made to the CSRD in accordance with current Development Services Procedures Bylaw. Additional information is available from the CSRD, Development Services Department.

Non-conforming Uses and Siting

The Local Government Act sets out provisions for non-conforming uses and siting. Generally, if land, a building or a structure is lawfully used at the time a bylaw was adopted, and the use does not conform to the Bylaw, then the use may be continued. If the use and density of buildings and structures conform to the Bylaw but the siting, size or dimensions of a building or structure constructed before the Bylaw was adopted do not, then it may be maintained, extended or altered in the manner stated in the Act. The Local Government Act, Division 4 is more detailed than is stated here and additional limitations apply.
