Subject: DVP submission DVP No. 800- 29

Thank you for informing us of this issue. As neighbours we are not so much concerned about the size of the buildings as what the purpose for them is. If the purpose is to create a business that will cause noise, traffic, pollution or any other disruption, we will be opposed to that situation. The original prospectus on this subdivision rendered it residential and no business or industry was allowed. Please keep us informed on this issue and confirm that the zoning is still residential. Thanks. [REDACTED]
