Petition re: Spa Hills Farm Slaughterhouse Waste Composting Facility			
We the undersigned citizens of the Salmon Valley, Silver Creek and Yankee Flats areas have serious concerns regarding the location of the slaughterhouse waste composting facility on the Mitchell's Spa Hills Farm 2223 Yankee Flats Rd. This is a water shed area draining into the Salmon River below. The disease wildlife migration, contamination of the food chain and odour have forced us to speak out against this facility. As citizens of this area we are gravely concerned with the negative environmental impact both short and long term this type of facility will have on our community.			
We the undersigned citizens of this community are strongly opposed to a slaughterhouse waste composting facility in this area.
